Egypt ACI Shipper Guide Purpose

The purpose of this guide is to provide guidance to shippers, forwarders, and alliances to transmit the required information to carriers for imports to Egypt via INTTRA shipping instructions. It is the responsibility of the shippers/forwarders to provide accurate information to carriers and INTTRA will not fail any transaction when the required information is missing.

Egypt Advance Cargo Information (ACI) Regulation

Advance Cargo Information (ACI) is a new customs system which requires the Egyptian importers to declare full information about the goods shipped to Egypt at least 48 hours before actual shipping from the exporting country.

When the Egyptian Authorities accept the advance cargo information, a unique ACID Number is issued for each ACI request.

According to the ACI procedures, Egyptian importers need to instruct their exporters to include the following data—for their carriers—in their shipping instructions:

Data Required	Description
ACID Number	A 19 digit number that uniquely identifies the ACI shipment. For example: 4988470982020120017
Egyptian Importer VAT Number	A 9 digit number, issued by the Egyptian Tax Authority that uniquely identifies all companies registered in Egypt.
Exporter Registration Number	An alphanumeric string with the following information: <ul style="list-style-type: none"> • Two-letter code (ISO-3166-1) representing the country where the exporter (the shipper) is registered • Two digits identifying the type of registration number (01 - Company Registry, 02-VAT) • The exporter registration number issued by the relevant authority. For example: DE-02-1208614364
Exporter Registration Country	Two-letter code (ISO-3166-1) representing the country where the exporter (the shipper) is registered.

This regulation is currently planned to go into effect on **Oct 1, 2021**.

For more information about ACI, please click [here](#) for Nafeza, the National Single Window for Egyptian Trade platform.

Postponed to Oct 1, 2021

As per the communication received from Egypt Ministry of Finance reference to Decision No. 328 of 2021 amending some provisions of Resolution No. 38 of 2021, there is an extension to the Advance Cargo Information Declaration (ACID) Implementation by three months. The regulations are now scheduled to go live from 1st October 2021 instead of earlier announced date of 1st July 2021.

The official communication can be found out on - [Egyptian Customs Authority](#) website.

INTTRA Web Implementation

For imports to Egypt,

ACID Number, Exporter's (aka Shipper's) Registration Number and Importer's (aka Consignee's) VAT Number can be provided as follows:

Customs Compliance

Government Tax IDs

Shipper: DE-02-1208614364
 Consignee: 982128129
 Notify Party: Enter Notify Party Tax ID...
 Print Tax IDs on Bill of Lading
 DO NOT Print Tax IDs on Bill of Lading

House Bill Filing Information (US, Canada, Mexico, Puerto Rico Customs Filing)

N/A
 Filed by NVOCC
 Filed by Carrier

Cargo Identification Numbers (India Sea Cargo Manifest, Egypt ACI)

PCIN: Enter Reference(s)...
 CSN: Enter Reference(s)...
 ACID Number, MCIN: 4988470982020120017

Exporter's (aka Shipper's) country of registration can be provided as follows:

- Step 1: Click on “Add Party Details” for Shipper party
- Step 2: Select country and click on Save

General Details

This is a consolidation shipment containing both Master and Submaster bills of lading
